

COURT OF QUEEN'S BENCH OF MANITOBA

PRACTICE DIRECTION

ADJOURNMENTS

The Court has experienced a number of cases where complex motions were adjourned last minute in situations where it is apparent that counsel would have known earlier that the matter was not proceeding. As a courtesy to the Court and to avoid delaying other matters that may otherwise be heard, counsel are reminded to inform the Court at the earliest possible date if a matter will not be proceeding.

Coming into effect

This Practice Direction comes into effect immediately.
