

NOTICE

COURT OF QUEEN'S BENCH OF MANITOBA

RE: CASE MANAGEMENT MATTERS

A new Family Division case flow model will be implemented on February 1, 2019. To facilitate the transition to the new model, no case conference dates will be set on matters where an initiating pleading or motion to vary has been filed but where no motion or case conference date has yet been set. These matters will proceed into the new case flow after February 1, 2019.

It is recognized that there may be issues that require the immediate attention of the Court during the transition period prior to February 1, 2019. In such cases, the party seeking relief may file a motion to be heard on the existing Tuesday Family List. Parties and their counsel will be required to attend and be prepared to discuss not only the motion before the court, but the next steps in the process. The assigned judges will generally have time to meet with parties and their counsel Tuesday afternoon to further any resolution discussions.

Additional information on the new case flow will be posted on the Manitoba Courts website (www.manitobacourts.mb.ca), as it becomes available.

Questions regarding scheduling of case conferences may be directed to the Case Management Coordinator at (204) 945-7853.
